AGILE HIVE

SAFe® with Atlassian Tools

Agile Hive is a SAFe® solution based on the successful Atlassian tools Jira & Confluence, which supports all SAFe® configurations, *Full SAFe®, Large Solution SAFe®, Portfolio SAFe®,* and *Essential SAFe®.*

Comprehensive SAFe® reporting

Follow progress reports and forecasts in real time.

SAFe® artifact hierarchy

Track artifacts clearly using the hierarchical display.

Visualized dependencies

Improve your planning and see the visual dependencies between issues.

Automatic documentation

Let Agile Hive automatically create the foundation for your epic documentation.

Are you looking to introduce SAFe® in your company and search for an experienced partner?
